

Bark Bark for Dog Parks Community Petition

We, the undersigned, ask Salmon Arm Council to approve funding in the 2024 Budget for a minimum of \$75,000 to be used to construct a fully serviced dog park in the City. We ask Council to allocate a minimum of 3 acres of dedicated dog park space to ensure it is properly sized for all dogs to play and socialize in a healthy environment; fenced, with water (tap or fountain), shade (trees or manmade), for small and large breeds.

We suggest using the vacant lot west of the Recreation Centre.
(it is vacant, lots of parking nearby, centrally located, close to amenities, already a community hub)

In addition, we ask for an additional funding commitment of \$50,000 per year dedicated to constructing and improving dog parks in our community (for at least 4 more years).

**We are dog owners, dog lovers. We know socialization is good for the dogs, and us.
We know dedicated and unique dog parks will promote tourism and support the economy.
We know our dogs need the space to run and play, and so do we.**
