Body

In looking at the development plans for this property - my biggest concern is where the children from 86 units will be going to school. There is only one elementary school in the area which is already stretched. Although it is good to provide more housing which is needed - the infrastructure needs to be able to support the added population. Even the added traffic on a narrow street should be a consideration. I'm not sure whether developers have to account for these issues but hopefully these are issues that will be addressed.

Thank you for listening to my concerns.
